

Want to pay less for parking?
Looking for another way to go?
Share the ride, share the cost!

Want to pay less for parking?
Looking for another way to go?
Share the ride, share the cost!

Carma is a smartphone app that matches drivers and riders to share rides. Fill those empty seats in your car and share the cost, or get a ride to the ferry and forget parking hassles, using Carma to find people going your way.

Have an irregular schedule? Carma is a perfect solution. You can set up one-time rides for now or later, or regular rides—whatever works for you.

Shorten your walk! Share the ride and use the Ferry HOV parking right up front.

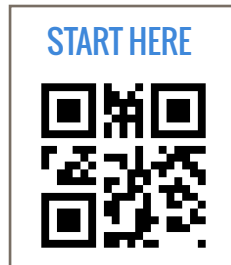

How Does it Work?

- List the trip you want to share, as a rider or driver.
- Select a ridesharing partner from the list, and send a message through Carma, or call them.
- Meet up and share the trip!
- At the end of the trip, the driver automatically receives a payment from the rider, based on the distance traveled.
- The driver and riders rate the trip, and that information gets shared with the rest of the community.

Want to Get Started?

1. Using your smart phone, scan the QR code or go to <https://car.ma> and download the Carma app.
2. Log in, set up a trip, and start ridesharing!

You'll receive \$5 in ride credit in your account for signing up, and a \$10 Amazon gift card just for sharing that first trip.

Save time, save money, save the environment.
